

Powering Industries, Driving Progress

At Haulmax Technologies, we are driven by quality, inspired by customers, and empowered by a global vision that delivers solutions without boundaries.

Haulmax Technology is a global leader in the design, manufacturing, and supply of advanced processing equipment and turnkey solutions. With a deep understanding of industrial processes and a commitment to engineering excellence, we deliver complete, end-to-end systems that optimize efficiency, ensure safety, and enhance productivity across diverse industries.

From concept to commissioning, we provide customized turnkey solutions for material handling, conveying, mixing, size reduction, and specialized processing applications. Our approach goes beyond supplying equipment, we integrate innovation, precision, and reliability to build long-term partnerships with industries worldwide.

SHAPING SMARTER INDUSTRIES WITH TAILORED SOLUTIONS

CHEMICAL

PLASTIC

ADDITIVE

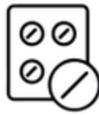

FOOD

DAIRY

PET FOOD

PHARMA

COSMETICS

BATTERY

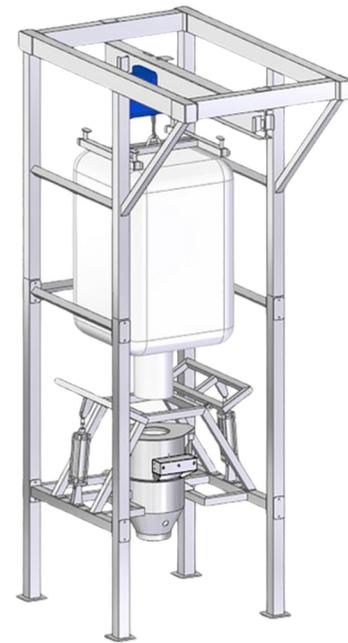

HAULMAX AUTOMATIC BAG SLITTING MACHINE

- Safe & Clean – Dust-free unloading protects operators and workplace.
- Effortless Operation – Handles all bag types with ease.
- Durable Design – Heavy-duty cutter and components built to last.
- Reliable Performance – Smooth operation with minimal downtime.
- Smart Integration – Complete system with conveyor, dust collector & compactor.

HAULMAX JUMBO BAG UNLOADER

- Effortless Unloading – Engineered for the seamless discharge of jumbo bags.
- Operator Safety– Equipped with built-in features that reduce manual handling risks.
- Dust-Free Operation – Integrated dust control systems maintain a clean working environment.
- Versatile Design – Capable of managing a diverse array of bulk materials.
- Reliable & Durable – Constructed with heavy-duty materials for long-lasting performance.

TIPPING MACHINE WITH SIFTER

- Dual Functionality – Combines dust-free bag tipping with in-line sifting.
- Safe & Ergonomic – Operator-friendly design minimizes strain.
- Dust Control – Built-in de-dusting ensures a clean work environment.
- Quality Assurance – Integrated sifter removes lumps and foreign particles.
- Reliable & Versatile – Suitable for food, pharma, chemical, and industrial applications
- Bag Dump Station with Magnet

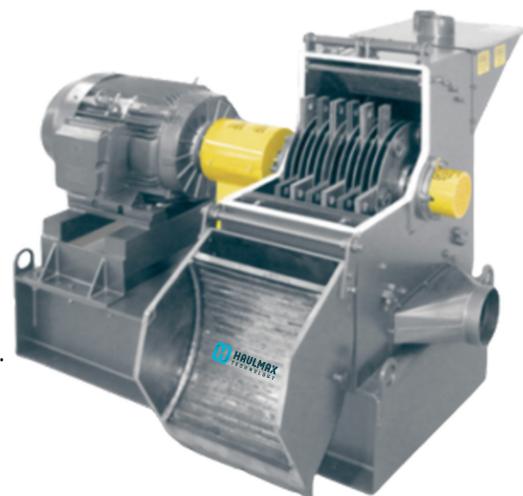

HAULMAX CONE MILL

- Consistent Results – Delivers uniform particle size for better product quality.
- Gentle & Efficient – Reduces size without damaging heat-sensitive materials.
- Easy to Use – Quick screen change and simple cleaning save time.
- Durable & Hygienic – Stainless steel design built for long life and safe operation.
- Versatile – Perfect for food, pharma, chemical, and specialty applications.

HAULMAX HAMMER MILL

- Robust Performance: Heavy-duty build for tough raw materials.
- Flexible Output: Multiple screen sizes for customized particle size.
- Optimized Efficiency: Balanced rotor reduces energy use and vibration.
- Long Service Life: Replaceable wear parts minimize downtime.
- Cleaner Operation: Compatible with dust extraction for hygiene and safety.

HAULMAX PIN MILL

- Fine Grinding Precision: Ultra-fine particle size with high-speed pin action.
- Versatile Use: Perfect for sugar, salt, spices, chemicals, and specialty powders.
- Cool Processing: Minimal heat protects sensitive materials.
- Low Maintenance: Easy cleaning and part replacement.
- Hygienic & Compact: Stainless steel, space-saving design.

HAULMAX BELT CONVEYORS

- High Capacity: Handles bulk solids continuously, up to several tons/hour.
- Precision Engineering: Durable idlers, pulleys, and drive for smooth operation.
- Material Versatility: Suitable for powders, granules, lumps, and packages.
- Energy Efficient: Optimized belt design lowers friction and power use.
- Safe & Reliable: Features alignment sensors, emergency stops, and dust-tight covers.

HAULMAX SCREW CONVEYORS

- Efficient Flow: Continuous conveying with minimal product loss.
- Flexible Design: Horizontal, inclined, or vertical orientations available.
- Durable Build: Heavy-duty stainless or carbon steel construction.
- Low Maintenance: Simple design with easy cleaning access.
- Safe & Customizable: Dust-tight housing and wear protection options.

HAULMAX Z-CONVEYORS

- Gentle Handling – Protects fragile products with precision bucket design.
- High Capacity – Efficiently conveys bulk materials up to several tons per hour.
- Space Saving – Vertical + horizontal conveying in one compact system.
- Durable & Reliable – Heavy-duty construction ensures long service life.
- Customizable – Multiple discharge points and bucket sizes for process flexibility.

HAULMAX HOPPER WITH FEEDER

CONTROLLED FEEDING, SMOOTH FLOW

HAULMAX INTERMEDIATE BULK CONTAINER (IBC)

- Robust Construction: Heavy-duty stainless steel or food-grade materials.
- Hygienic Design: Smooth, crevice-free surfaces for easy cleaning and GMP/FDA compliance.
- Safe & Dust-Free: Airtight lids and sealed outlets prevent contamination.
- Flexible Discharge: Options include butterfly valve, slide gate, or custom outlets.
- Stackable & Space-Saving: Optimized frames for safe storage and efficient transport.

HAULMAX IBC LIFTING & UNLOADING SYSTEM

- Heavy-Duty Lifting Frame: Safely hoists and positions loaded IBCs.
- Controlled Discharge: Valve and docking system enable smooth, dust-free unloading.
- Flexible Operation: Fits various IBC sizes and outlet types.
- Operator Safety: Guarded lifting points and interlocks prevent accidents.
- Low Maintenance: Rugged design with minimal wear parts for durability.

HOPPEHAULMAX HOPPER WITH FEEDER

- Sturdy Design: Industrial-grade materials for reliable continuous performance.
- Accurate Feeding: Ensures controlled, uniform bulk material dosing.
- Multiple Feeder Types: Screw, vibro, or belt feeders to fit your process.
- Sealed Construction: Minimizes dust and protects product quality.
- Process Integration: Easily connects with conveyors, mixers, and crushers.

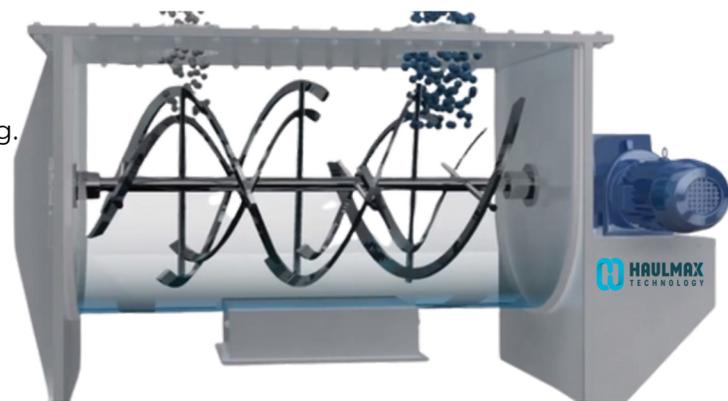

HAULMAX PADDLE MIXER

- Optimized Geometry – Counter-rotating paddles ensure uniform mixing.
- Versatile Handling – Suitable for powders, granules, crystals, and pastes.
- Heavy-Duty Drive – High-torque gearbox for full-load reliability.
- Accurate Discharge – Adjustable outlets for consistent flow.
- Easy Maintenance – Rugged build with quick access panels.

HAULMAX RIBBON BLENDER

- Efficient Mixing – Double ribbons for fast, uniform blending.
- Versatile Use – Handles powders, granules, and pastes.
- Durable Design – Built with wear-resistant materials.
- Flexible Sizes – Available in different batch capacities.
- Energy Saving – Optimized design cuts mixing time and power.

HAULMAX SIGMA MIXER

- High-Torque Drive – Handles heavy-duty, high-viscosity materials.
- Advanced Rotor Design – Ensures uniform kneading and folding.
- Leak-Proof Seals – Protects bearings and prevents material loss.
- Smart Controls – Variable speed and temperature monitoring options.
- Durable Build – Thick-walled, wear-resistant construction for long life.

HAULMAX SCREENING SYSTEMS

PRECISION IN EVERY SCREEN

HAULMAX ROUND SIFTER

- Compact design for efficient particle separation.
- Easy to clean with quick-change screens.
- Ideal for food, pharma, and chemical powders.

HAULMAX CENTER-IN CENTER-OUT SIFTER

- Direct flow design for higher throughput.
- Minimizes material handling and dust.
- Suitable for inline powder screening.

HAULMAX TUMBLER SCREEN

- 3D tumbling motion for precise grading.
- Handles bulk powders with minimal product loss.
- Excellent for multi-fraction separation.

HAULMAX CENTRIFUGAL SIFTER

- High-speed rotating paddles for rapid screening.
- Gentle on fragile materials while ensuring efficiency.
- Delivers consistent, fine particle separation.

HAULMAX HORIZONTAL SCREEN

- Vibratory horizontal motion for controlled sieving.
- Robust construction for continuous operation.
- Best for granules, pellets, and coarse powders.

HAULMAX HOPPER MAGNET

- Powerful Magnetic Bars efficiently remove ferrous contaminants.
- Durable Stainless Steel Housing ensures hygiene and long service life.
- Slide-Out Drawer Design enables quick, easy cleaning and maintenance.
- High Temperature Resistance supports demanding industrial processes.
- Custom Sizes Available to fit a variety of pipeline dimensions.

HAULMAX LIQUID MAGNET

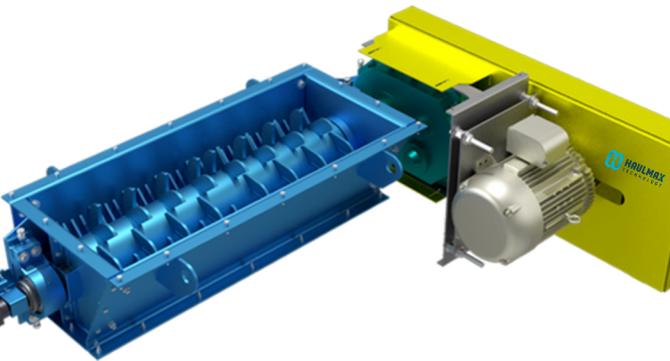

- High-Intensity Magnetic Bars remove fine ferrous particles from liquids.
- Stainless Steel Housing built for corrosion resistance and hygiene.
- Flow-Optimized Design minimizes pressure drop in liquid systems.
- Easy Access for Cleaning with removable magnetic elements.
- Suitable for Various Liquids including water, oils, and chemicals.

HAULMAX BULLET MAGNET

- Powerful rare-earth magnets capture fine and coarse ferrous particles.
- Compact design fits pipelines without affecting flow.
- Durable stainless steel housing for hygienic, industrial use.
- Minimal pressure drop ensures efficient material transfer.
- Easy-clean magnetic elements reduce downtime.

HAULMAX DE-LUMPING SOLUTIONS

- Effective Size Reduction – Breaks down agglomerates into free-flowing material.
- Heavy-Duty Blades – Hardened and wear-resistant for long service life.
- Controlled Output – Adjustable gap for uniform particle size.
- Dust-Tight Design – Prevents contamination and ensures safe operation.
- Easy Maintenance – Quick-access doors for cleaning and servicing.

HAULMAX BULK STORAGE SOLUTIONS

- Large Storage Capacity – Designed for bulk powders, granules, and solids.
- Engineered Durability – Designed to withstand heavy loads and long-term operation.
- Flow Efficiency – Hopper bottom with smooth discharge design.
- Safe & Hygienic – Dust-proof, moisture-resistant, and compliant with industry standards.
- Custom Options – Available with level sensors, aeration pads, and discharge valves.

AGITATION SOLUTIONS BY HAULMAX

- Consistent Mixing – Prevents material settling and ensures uniform blending.
- Robust Design – Heavy-duty shaft and impellers for continuous operation.
- Custom Configurations – Available in top-entry, side-entry, or bottom-entry designs.
- Process Flexibility – Handles liquids, slurries, and viscous materials.
- Low Maintenance – Smooth surfaces and easy-access seals reduce downtime.

HAULMAX DUST COLLECTING SYSTEM

- High Filtration Efficiency – Captures fine dust with advanced filter media.
- Automatic Cleaning – Pulse-jet system ensures consistent airflow.
- Explosion-Safe Design – ATEX/NFPA compliant for combustible dust.
- Energy Efficient – Low pressure drop reduces power consumption.
- Easy Maintenance – Quick filter access and robust construction.

HAULMAX FLOW CONTROL VALVES

- Accurate Feeding – Reliable discharge of powders & granules.
- Robust Build – Handles tough, abrasive materials.
- Airlock Seal – Maintains system pressure.
- Quick Cleaning – Easy-access design.
- Flexible Designs – Drop-through & blow-through options.

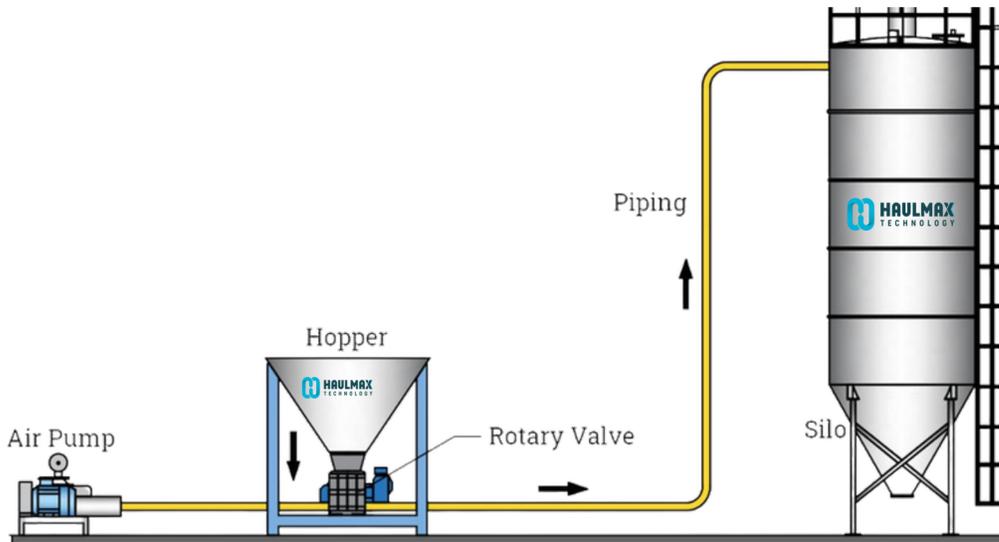

HAULMAX FILTRATION SOLUTIONS

- Automatic Cleaning – Reduces manual effort, keeps flow steady.
- Versatile Mechanisms – Backwash, scraper, brush, or purge options.
- Wide Viscosity Range – Works with thin to highly viscous liquids.
- Hygienic Build – Stainless steel, easy to install and clean.
- Uninterrupted Filtration – Continuous operation with online cleaning.

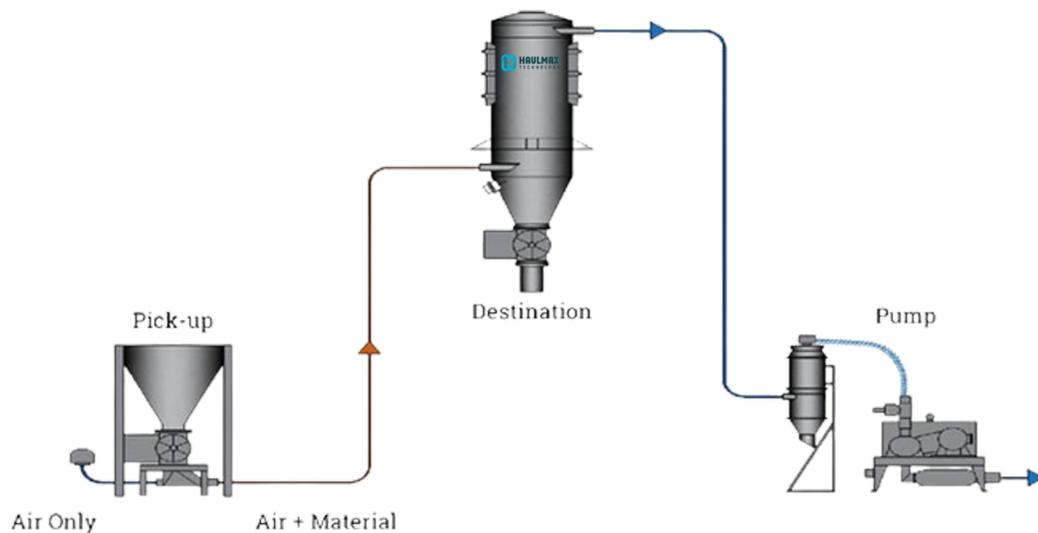

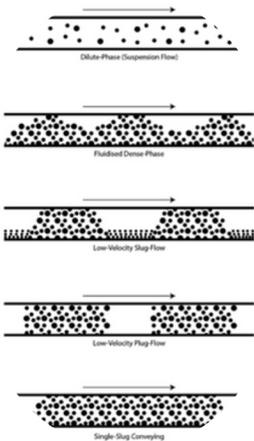

HAULMAX PNEUMATIC CONVEYING

VACUUM & PRESSURE CONVEYING SYSTEMS

HAULMAX POSITIVE PRESSURE POWDER TRANSFER SYSTEM

- High-Pressure Conveying – Long-distance powder transfer using compressed air.
- High Throughput – Moves large volumes faster than vacuum systems.
- Built to Last – Heavy-duty, robust design for continuous operation.
- Flexible Routing – Feeds multiple points from one source.
- Low Maintenance – Minimal wear, fewer moving parts.

HAULMAX VACUUM POWDER TRANSFER SYSTEM

- Negative Pressure Conveying – Vacuum transfer for controlled powder movement.
- Dust-Free & Safe – Prevents leakage, ensures clean workspaces.
- Gentle Handling – Perfect for fragile or heat-sensitive powders.
- Compact Design – Fits flexible layouts, integrates easily.
- Hygienic Build – Stainless steel, easy to clean.

WORLD WIDE PRESENT

🌍 Global Turnkey Solutions

We provide end-to-end systems that cover everything from design to installation. Our turnkey approach means you get a complete, ready-to-use solution that saves time and effort.

💛 Customer-Specific Solutions

Every business is different. That's why we design custom-made systems that match your exact process, safety, and quality needs. No one-size-fits all only solutions built for you.

🔧 Easy, Reliable, Built to Last

Our systems are made to run smoothly, reduce downtime, and grow with your business. With Haulmax, you get solutions that are simple, practical, and dependable.

TRUSTED BY INDUSTRY LEADERS

We supply individual equipment along with turn-key solutions & customized solutions by identifying our customer needs, provide solutions to their requirement and providing dependable after-sales services.
